

# TURKISH HAZELNUT WEEKLY SHIPMENT REPORT

## Weekly

## Seasonal

Not much different than last week. Still export volume is running a lot behind of other seasons. We are now coming to the end of Oct. And this week Turkey will be closed for half a day of 28th and full day for 29th of Oct. (Republic Day) Demand is there but we see buyers covering as much as their urgent needs and not much commitment for the coming month as well. Ferrero still not willing to come to the market from these levels. Please ask fresh offers.
