

TURKISH HAZELNUT WEEKLY SHIPMENT REPORT

Weekly

Seasonal

The export remains at a low volume. Last week, the Turkish Competition Agency announced its decision regarding Ferrero's application to reduce its purchasing commitment for in-shell hazelnuts from 45,000 metric tons to 30,000 metric tons. The agency has accepted this application, and the reduction will be in effect until the end of December 2025. There has been little effect on the market this week. We observe a seller's market with limited buying activity. There are many offers, but there is not much contracting.
